- ✓ Customization of the frame to the brickwork.

## Frame

Built with white lacquer aluminum profiles for panel mounting with trim included or on brickwork. It has an **oval EPDM gasket** to achieve **greater tightness, reduces noise and the passage of air currents**.

## Panel

Compact **40 mm injection panel**, manufactured in one or two panels made up of a perimeter frame in white lacquer or anodized aluminum in case the panel finish is gray or stainless.

1 panel	Maximum beam width	1.2 m
	Maximum passage height	2.5 m
2 panels	Maximum beam width	2.5 m
	Maximum passage height	2.5 m

## Fittings

Anti-snag **double curve stainless steel handle** and protection plate that **prevents wear on the door**. It has a hinge made of stainless aluminum profiles.

Lock included in all models.

## Coatings

Wide range of finishes to guarantee **maximum durability, even in the most extreme environments**: stainless steel badge, stainless steel, PVC, PP, BC...

## Colors

We have a **wide variety of RAL colors** to meet the needs of each client.

- 1 Stainless steel handle.
- 2 Hinge.
- 3 Service pivot door detail.
- 4 Handle profile.

### Easy assembly

Quick and easy installation. Pre-assembled door.

### Resistance

Corrosion resistance, even in extreme environments depending on the finish. High durability.

### Saving

Savings in time and money.

### Functional features

Optimal climatic, hygienic and sanitary functional qualities.

### Customization

Customization to panel/brickwork regardless of the thickness and the demands of the project.

### Insulation

High level of thermal and acoustic insulation.
