

Data sheet

# X-ray window

# X-RAY WINDOW

The Kavidoors X-ray window is designed to be installed in different areas: windows for monitoring for X-ray, Angiography and Tacs rooms; protection windows for laboratories; lenses for safety glasses; X-ray or medical diagnostic screens for airport security.

## Frame

**Leaded frame and glass.** They are supplied in polished plates with dimensions up to 2800x1400 mm, allowing a **wider field of view**.

## Edges

Polished edges for added safety.

### X-rays

Shielding against X-rays emitted by equipment operating between 80 and 300 kV.

### High protection

High level of protection due to its high concentration of barium and lead.
